# ACKNOWLEDGEMENT

I would like to offer my utmost gratitude to all those who lend their hands to complete this dissertation better than I expected.

Firstly I would like to convey my heartfelt thank to my supervisor, Dr.Rameezdeen, the Head, Department of Building Economics for all the support and guidance provided which leads to success of this research without which this would not have been realized.

I express my sincere gratitude to research coordinator Dr. Sepani Senaratne for offering guidance and advices when ever requested and all the senior lectures, Lectures, and the staff in the Department of Building Economics for their support given on this research.

I also express my sincere thank to my colleague Randika for extending her support to collect data collectively for the research.

Finally, I'm grateful to my parent for paving the correct path for my personal and professional development and also to my loving husband for his encouragement and support given to complete this study.
