## Declaration of Candidate and Supervisor

Hereby I state and declare that this Dissertation report is the product of my own and is based on a research that I conducted independently without the participation of any other person or authority. The references made to other research in here have been acknowledged appropriately and with appreciation. The sources of data and information external to the dissertation have been acknowledged appropriately. In form or substance this dissertation has never been submitted for any other degree, anywhere else. I hereby give my consent to making this available by photocopy for inter-library loans, and for the title and summary of the dissertation report to be made available for use by other institutions of learning.

Also, I hereby grant to University of Moratuwa the non-exclusive right to reproduce and distribute my dissertation, in whole or in print, electronic or other medium. I retain the right to use this content in whole or part in future works (such as articles or books)

.....  
M.R. S. Mudunkotuwa. Date

---

The above candidate has carried out research for the master dissertation under our supervision

.....  
Signature of the External Supervisor Date

Prof H.D. Karunaratne.

BA(Econ) (Colombo), MA (Econ), Ph D (Nagoya, Japan).

Department of Business Economics, Faculty of Management & Finance, University of Colombo.

.....  
Signature of the Internal Supervisor Date

Prof T S G Peiris.

B Sc (Colombo), M Sc (Statistics), Ph D (Applied Statistics), FRSS.

Professor in Applied Statistics, Head, Department of Mathematics, Faculty of Engineering,

University of Moratuwa.

## **Abstract**

The study investigates the macroeconomic factors which affect on tourist arrivals in Sri Lanka for the period 1990-2014, using annually series of the corresponding variables. To achieve the objectives both time series technique and econometrics techniques were used to analysis of data. The statistical techniques used include the unit root Augmented Dickey Fuller test in order to fulfill the objective of stationary for all the time series. The results from granger causality revealed that past behavior of gross domestic production, gross domestic per capita income, government expenditure on capital and net lending, imports of goods, exports of goods and foreign direct investment are significant factors which determine the present behavior of tourist arrivals. The regression analysis it showed that all macroeconomic variables are strongly linear associated with tourist arrivals. The VECM model has revealed that there exists long run relationship between tourist arrivals and those variables. While tourist arrivals have elastic behavior with respect to gross domestic production, per capita income, imports and tourist cost and inelastic demand with respect to exports, direct employment and inflation rate in the economy. The results derived in this study can be effectively used for implementation of new strategies to attract more tourists to Sri Lanka.

Keywords: Granger Causality, Gross Domestic Production, Regression Analysis, Tourist Arrivals, VECM

## **Acknowledgement**

I would like to extend sincere gratitude and respect to my external supervisor Prof H D Karunaratne, Professor in Economics, Faculty of Management and Finance, University of Colombo, and Internal supervisor Prof T S G Peiris, Professor in Applied Statistics, Faculty of Engineering, University of Moratuwa, for their patience and guidance. They provided the necessary and valuable advice and support that made completion of this dissertation possible.

I would also like to express my deepest appreciation to my husband for his understanding, patience and encouragement throughout this dissertation. Without his dedicated support, I could never have succeeded in this endeavor. I also wish to sincerely thank my mother and father for the joy, care, encouragement and moral support they have given me throughout my life. Further I wish to extend sincere my gratitude to my unborn little angel for bearing stress and share the happiness.

Last but not least, I would like to thank CINEC Campus who gave me study leave to complete the dissertation as well as all the other people who helped and supported me throughout my post graduate journey.

# TABLE OF CONTENTS

DECLARATION	i
ABSTRACT	ii
ACKNOWLEDGEMENT	iii
TABLE OF CONTENT	iv
LIST OF FIGURES	viii
LIST OF TABLE	ix
LIST OF ABBREVIATION	x
CHAPTER 1: INTRODUCTION	1
1.1 Background of the Study	1
1.2 Concepts and Definitions	1
1.2.1 Tourism	1
1.2.2 Types of Tourism	1
1.3 Tourism Industry in the World	2
1.4 Tourism Industry of Sri Lanka	3
1.4.1 Tourist Arrivals	3
1.4.2 Sri Lanka Tourism Development Authority	5
1.5 Tourist Contribution to Economy	5
1.5.1 Direct travel and Tourism Contribution	6
1.5.2 Indirect Travel and Tourism Contribution	7
1.5.3 Induce Contribution	7
1.6 Statement of Problem	8
1.7 Significance of the Study	9
1.8 Objectives	9
1.9 Limitation of the Study	10
1.10 Outline of the Essay	10

CHAPTER 2: LITERATURE REVIEW	11
2.1 Introduction	11
2.2 Studies on Gross Domestic Production and Tourism	11
2.3 Studies on Income and Tourism	12
2.4 Relationship among Exchange rate , Price and Tourism	13
2.5 Studies on International Trade and Tourism	14
2.6 Studies on Government Expenditure, Foreign Direct Investment and Tourist Arrivals	15
2.7 Studies on Employment in the Industry and Tourists Receipts	16
2.8 Summary of Chapter 2	17
CHAPTER 3: MATERIALS AND METHODS	18
3.1 Introduction	18
3.2 Secondary Data Used	18
3.3.1 Description of Selected Data	18
3.3.2 Gross Domestic Production	18
3.3.3 Per Capita Gross Domestic Production	19
3.3.4 Exports of Goods	19
3.3.5 Import of Goods	19
3.3.6 Official Average Exchange Rate	19
3.3.7 Inflation	20
3.3.8 Tourist Cost Per Day	20
3.3.9 Foreign Direct Investment	20
3.3.10 Government Expenditure	20
3.3.11 Direct Employment	20
3.3 Conceptual Framework	21
3.4 Research Design	22
3.5.1 Analysis Framework	23

3.5 Time Series Analysis	24
3.6.1 Test for Stationary	24
3.6.2 Unit Root Test	24
3.6.3 Augmented Dickey Fuller Test	25
3.6.4 Testing for Co- Integration	26
3.6.5 Testing for Causality	26
3.6 Regression Analysis	26
3.7.1 Correlation Coefficient	26
3.7.2 Simple Linear Regression	27
3.7.3 Multiple linear Regression	27
3.8 Software Used	28
CHAPTER 04: RESULTS AND DISCUSSIONS	29
4.1 Descriptive Statistics	29
4.2 Temporal Variability of Macroeconomic Variables	30
4.3 Normality of Time Series	37
4.4 Test for Stationary for Series	38
4.5 Testing for the Causality	40
4.6 Granger Causality among Macroeconomic Variables which Granger Caused with TA	43
4.7 Identification of Significant Macroeconomic Variables	51
4.7.1 Correlation between Variables	51
4.7.2 Selection of Variables	52
4.8 Model Development for Forecast TA	53
4.8.1 Selection of Appropriate Lag Length	53
4.8.2 Estimation of Johansen Cointegration Model for TA	54
4.8.3 Diagnostic test for Error Correction Model for TA	57

4.9 Elasticity of TA with Respect to Macroeconomic Variables	59
4.10 Summary of Chapter 4	60
CHAPTER 05: CONCLUSIONS AND RECOMMENDATIONS	62
5.1 Conclusions	62
5.2 Recommendations	63
REFERENCE	65
