## Biodiversity in Landscape Design

Abstract vi

List and Sources of Illustrations vii

Acknowledgements ix

### Chapter I

#### Introduction

- Current status of biodiversity 1
- Background and objectives 4

### Chapter II

#### Existing environmental characters & relevant data

- Climate 6
- Rainfall 6
- Drainage Patterns 9
- Geology 10
- Soils 11
- Vegetation Types 12

### Chapter III

#### Historical aspects of plant selection in landscaping

- During Pre colonial period
  - Traditional Village 14
  - Kandyan Home Garden 16
  - Nandana Uyana, Mahameghawana Uyana, Ranmasu Uyana. 20
  - Kaludiya Pokuna 22
  - Ritigala 24
- During Colonial period
  - Museum Garden 27

## Chapter IV

### Case Studies – Present Situation

- Public spaces
  - Botanic Gardens 29
  - Viharamahadevi Park 31
  - Independence Square 32
  - Town Hall 34
  
- Private home gardens and residential areas
  - Lunuganga 35
  - Dambulla Arboretum 38
  - Plant Nurseries 40

## Chapter V

- Analysis 42
- Conclusion 45

## Bibliography

## Appendices

Appendix I-Recorded biodiversity of Sri Lanka's better known flora and fauna.

Appendix II - Plants commonly available at plant nurseries near Colombo

Appendix III - List of endemic and indigenous trees, shrubs and herbs which can be used in landscape designing

Appendix IV - Effect of endemic and indigenous plant species on butterflies.

## List and Sources of Illustrations

- Figure 1 Rainfall distribution during the northeast (IA) and southwest (IB) monsoons
- Figure 2 The main rivers showing their origin in the mountains and direction of flow to the sea.
- Figure 3 Major rock formations of the country.
- Figure 4 The major soil types of Sri Lanka.
- Figure 5 The floristic zones of Sri Lanka.
- Figure 6 Traditional House with a “Pila”, with the diverse vegetation in the background.
- Figure 7 Dry zone home garden showing vegetation as a backdrop and paddy storage structures (Vee Bissa) in the fore ground.
- Figure 8 A. “Vee Bissa”                      Figure 8 B      “Weva”
- Figure 9 Kandyan Home Garden.
- Figure 10 A & B : Dry zone tree species naturally grown near Basawakkulama tank.
- Figure 11 A & B : Entry environment to Kaludiya Pokuna with naturally grown native tree species.
- Figure 12 A & B ; Kaludiya pokuna natural blend of vegetation.
- Figure 13 A & B ; Kaludiya pokuna natural blend with existing rocks.
- Figure 14 A & B : Stone paved path at Ritigala.
- Figure 15              Ritigala vegetation.
- Figure 16 A & B : Resting places and small ponds at Ritigala.
- Figure 17 A & B : Padhanagara and the Balumgala area.
- Figure 18              Front View of the Colombo National Museum.
- Figure 19              Trees in the front Museum garden.
- Figure 20              Trees in the back of the Museum garden.
- Figure 21              The Royal Botanic Garden at Peradeniya.
- Figure 22              Orchid collection at Peradeniya.
- Figure 23              *Amherstia nobilis* at Peradeniya
- Figure 24              The plan of the Park at the entrance.
- Figure 25              The entrance and pathways at Vihara Maha Devi Park.
- Figure 26              Lake at the middle of the park.
- Figure 27              Independence Square.
- Figure 28              Pruned exotics at a side of the Square.
- Figure 29              Front View of the Town Hall
- Figure 30              A Main Entrance    B : Rice fields near the lake.
- Figure 31              The Lake.
- Figure 32              Shade growing plants.

- Figure 33 : A & B The viewing corridors of Lunuganga provide magnificent vistas to its visitors.
- Figure 34 : A & B Entrance To Dambulla Arboretum.
- Figure 35 *Saraca asoka* indigenous tree.
- Figure 36 *Capparis moonii* , endemic plant.
- Figure 37 A & B Ornamental plants available in nurseries.
- Figure 38 Exotic cacti found in nurseries.

## Acknowledgements

First and foremost I must express my sincere gratitude to University of Moratuwa and the staff of the Faculty of Architecture.

In particular I would be thankful to Prof. John Byrom and Mrs. Shirani Balasuriya for their guidance and support given me throughout the course.

My sincere thanks to Mr. Susira Udalamattha , Mrs. Shereene Amendra , and Mr.Wimal Lokuliyana whose support given me right from the beginning

I also thank to Prof. Samitha Manawadu, Prof. Nimal de Silva ,Prof. Sarath Kotagama and Dr. Sudheera Ranwala for their valuable guidance and assistance .

My thanks to Mrs. Wasana Dharmadasa , Mrs.Chandana Kalupahana and Mr. K.A.D. Chandradasa for their guidance and Mrs. Malkanthi for her help.

I extend my sincere thanks to all my friends who helped me in numerous ways during the course.

Finally I would like to thank my wife Mayuri and my family for their support.
