DECLARATION

I declare that this dissertation does not incorporate, without acknowledgment, any material previously submitted for a Degree or a Diploma in any University and to the best of my knowledge and belief, it does not contain any material previously published or written by another person or myself except where due reference is made in the text. I also hereby give consent for my dissertation, if accepted, to be made available for photocopying and for interlibrary loans, and for the title and summary to be made available to outside organization.

ACKNOWLEDGEMENT

This dissertation could not have been written without Dr. Gamini Wijayarathna who not only served as my supervisor but also encouraged and challenged me throughout this project.

Also I gratefully thank my dear husband Danusha, my dear parents and parents-in-law, without their patience, understanding, support and most of all love the completion of this work would not have been possible.

I would like to make this an opportunity to extend my heart full gratitude to my boss Indrajit Lankeshwara at Dialog Telekom who has released my burden at office very patiently until the end of this project.

Also I would like to thank my dear colleagues Anuradha, Roshan, Nuwan and Disna who worked with me as a team to share their knowledge to make this project is a successful one.

Last but not least I would like to extend my sincere gratitude to the academic & non academic staff members of the University of Moratuwa for their support in various capacities. Also many thanks to all the people who contributed in numerous ways in order to successful completion of this project.

Contents

	Page
Chapter 1 – Introduction to the Domain	01
1.1 Introduction	01
1.2 Projects Aims and Objectives	02
1.3 System Requirements	03
1.4 Structure of the Dissertation	03
1.5 Summary	04
Chapter 2 – Problem Domain and Motivation	05
2.1 Introduction	05
2.2 Existing System Overview	05
2.3 Problems and weaknesses	07
2.4 Similar Approaches	08
2.5 Summary	08
Chapter 3 – A Voyage through Technology	09
3.1 Introduction	09
3.2 Software Process Model	09
3.3 System Analysis and Design Methodology	12
3.4 Unified Modeling Language	16
3.5 Development Environment	17
3.6 Summary	18
Chapter 4 – Select the best technology for a smooth Debt Collection System	20
4.1 Introduction	20
4.2 Selecting a Software Process Model	20
4.3 Suitable System Analysis and Design Methodology	21
4.4 Designing with UML	21
4.5 Suitable Development Environment	22
4.6 Summary	23
Chapter 5 – Analysis and Design	24
5.1 Introduction	24
5.2 Requirement Analysis and Definition	24
5.3 System Architectural Design	28
5.4 Use-case Diagrams for Proposed System	30
5.5 Use-case Descriptions for Proposed System	33

University of Moratuwa, Sri Lanka
Electronic Theses & Dissertations
www.lib.mrt.ac.lk

5.6 Database Designing 34
5.7 Graphical User Interface Design 36
5.8 Summary 38

Chapter 6 – Implementation 39

6.1 Introduction 39
6.2 About Hardware and Software 39
6.3 Database Connectivity 39
6.4 Implementation of the Modules 40
6.5 Summary 48

Chapter 7 – Evaluation 49

7.1 Introduction 49
7.2 Evaluation Aspect of a Software System 49
7.3 Software Testing 50
7.4 Sample Test Case 52
7.5 Summary 53

Chapter 8 – Conclusion and Further Work 54

8.1 Introduction 54
8.2 Objective Vs Achievements 54
8.3 Limitations to the Scope 55
8.4 Problems Faced 55
8.5 Further Work 55
8.6 Summary 56

University of Moratuwa, Sri Lanka.
