

## BIBLIOGRAPHY

The following list includes selected literature available dealing with Cavitation in hydraulic structures.

### Ackerct .J

1. Experimental and Theoretical Investigation of Cavitation in water.  
- Report of the Kaiser Wilhelm Institute 1930.

### Appel. D.W.

2. An experimental study of Cavitation of submerged jets  
- Iowa Institute of Hydraulic Research 1956.

### Arndt. R

3. Cavitation near surfaces of Distributed Roughness  
- MIT Hydrodynamic Laboratory 1967
4. Rough surface Effect on Cavitation Inception  
- ASME Journal of Basic Engineering 1968

### Bernd L.H.

5. Cavitation Tensile strength and surface films  
- Sixth symposium on Naval Hydrodynamics 1966.

### Blake F.G.

6. The onset of Cavitation in Liquids  
- Harvard Accoustics Research Laboratory 1949

### Benjamin T.B.

7. Pressure waves from Collapsing Cavities  
- Symposium on Naval Hydrodynamics 1958.

### Birkhoff. G

8. Jets wakes and Cavities  
- Academic Press Incorporated 1957
9. Wall Effects on Cavity flow  
- Quarterly applied Maths Journal 1952.

Ball J.W.

10. Hydraulic Characteristic of gate slots  
- ASCE Journal of Hydraulics Division - 1959
11. Cavitation Effects on Sharp edged orifice  
- ASME Journal of Basic Engineering 1969

Besant W.H.

12. Hydrostatics and Hydrodynamics - (Text Book)  
- London 1859

Borden A.

13. Prediction of Cavitation Inception speeds on Rough Hydrodynamic bodies  
- Sixth Symposium on Naval Hydrodynamics 1966

Bureau of Reclamation

14. Selecting Hydraulic Reaction Turbines  
- Engineering Monograph No.20
15. Valves gates and steel conduits  
- Design Standard No.7

Bogachev I.N.

16. Cavitation Erosion and Means for its prevention  
- Moscow 1964

Brown F.R.

17. Cavitation in Hydraulic Structures  
- ASCE Journal of Hydraulics Div. Jan. 1963

Cement and Concrete Association

18. The Repair of Concrete Structures

Colgate D.

19. Cavitation Damage of Roughened Concrete surfaces  
- ASCE Journal of the Hydraulics Division - 1959

Canavelis

20. Comparison of the Resistance of Different Materials with a Jet Impact Test Rig.  
- Electricite de France - Report - 1967

Daily J.W.

21. Cavitation (Text Book)
  - Co-Authors - R.T. Knapp and F.G. Hammit.
22. Turbulence and Boundary Layer Effects on Cavitation
  - ASME Transactions 1956

De Corso S.M.

23. Erosion by liquid Impact.
  - ASTM Technical Publication - 1962

Ellis A.T.

24. Observations on bubble Collapse
  - Californian Institute of Technology Report 1952.
25. Parameters Affecting Cavitation and some new methods of study.
  - Californian Institute of Technology Report - 1965.
26. Dynamics of a Translating Cavity in a liquid on jets and shock waves from Cavitation.
  - Proc. Symposium on Naval Hydrodynamics - 1966.

Epstein P.S.

27. On the stability of the Gas bubbles in liquid
  - Journal Chem. Phys. 1950.

Eisenberg P.

28. Water Tunnel Investigation of steady state cavities.
  - DTMB - 1948.

Fisher J.C.

29. The Fracture of liquids
  - Journal of applied Physics 1948
30. Discontinuous flow with cavity Formation.
  - Underwater Ballistic Research Commission Report 1945.

Flynn S.G.

31. Physics of Accoustic Cavitation in liquids
  - Physical Accoustics - 1964.
32. Cavitation Dynamics
  - Harvard Accoustic Research Lab. 1966.

Fox F.E.

33. Gas bubbles with organic skin as Cavitation Nuclei  
- Journal of American Acoustic Society - 1946.

Furth R.

34. On the theory of holes in liquids  
- Proceedings Physic Soc. - 1940

Garcia R.

35. Correlation of Cavitation Damage with other materials  
and properties.  
- ASTM Publication - 1968

Garabedian P.R.

36. The Mathematic theory of three dimensional Cavities and Jets.  
- Bulletin of American Mathematical Society 1956.

Geurat J.A.

37. Linearised Theory of Partially Cavitated Hydrofoils.  
- International ship building Prog. 1959.

Gilbarq D.

38. Jets and Cavities  
- Physics Hand Book - 1960.

Hammit F.G.

39. Cavitation Damage and Performance research facilities.  
- ASME - Symposium of cavitation Research Facilities - 1964.
40. Gas content, Temperature and Velocity Effects on Cavitation  
inception.  
- University of Mich Nuclear Engineering - 1966.
41. Cavitation Damage Co-relation for various Fluid mater-  
ial combination.  
- University of Mich Nuclear Engineering - 1964.
42. Intensity of Damage encountered in field installations  
- ASME symposium on cavitation - 1966.
43. Damage to solids caused by cavitation.  
- Philosophical transactions of Royal Society 1966.

44. Effect on exposure time on Cavitation Damage.  
- ASME Journal of Basic Engineering 1966.

Harvey E.N.

45. On cavity formation in water  
- Journal of applied physics 1947.
46. Removal of Gas Nuclei from Liquids & Surfaces.  
- Journal of American Chemical Society 1948.

Harrison M.

47. An experimental study of single bubble cavitation noise.  
- DTMB Report 1952.

Hickling R.

48. Collapse and rebound of spherical bubble in water  
- Physics of fluids - 1964.

Holl J.W.

49. An effect of air content on the occurrence of Cavitation.  
- ASME Journal of Basic Engineering - 1960.
50. Cavitation Hysteresis  
- ASME Journal of Basic Engineering - 1966
51. The effect of surface irregularities on incipient Cavitation.  
- Pennsylvania University Research Lab. 1948.
52. Scale Effects on Cavitation  
- Journal of Basic Engineering 1961.

Hunter C.

53. On the collapse of an empty cavity in water.  
- Journal of Fluid Mechanics 1958.

Hobbs J.M.

54. Problems of Predicting Cavitation Erosion from Accelerated Tests  
- ASME - Cavitation Forum 1962.
55. Practical aspects of Cavitation  
- Philosophical transaction of Royal Society 1966.

Hoff G.

56. Material Destruction due to liquid impact.  
- ASTM special Technical Publication \* 1967

Horeggar E.

57. Tests on Erosion Caused By Jets.  
- Brown Boveri Review - 1927.

Johnson V.E.J.

58. Cavitation in Hydraulic Structures.  
- Proceedings of ASCE - May 1963.

Kermeen R.W.

59. Some observations of Cavitation in Hemispherical Road Models  
- Californian Institute of Technology Report - 1952.
60. Mechanism of Cavitation Inception and related Scale Effects Problem.  
- ASME Transactions 1955.
61. Incipient Cavitation and Wake Flow behind sharp edged Disks.  
- Californian Institute of Technology - 1957.

Knapp R.T.

62. Cavitation and Nuclii  
- ASME Transactions 1956
63. Laboratory Investigations on the mechanism of Cavitation  
- ASME Transactions 1946
64. Recent Investigations of the mechanism of cavitation and cavitation damage.  
- ASME Transactions - 1955
65. Cavitation Scale Effect  
- Proceedings IAHR - 1957

Kuper C.G.

66. The effect of dissolved gases on the Tensile strength of liquid  
- Proceedings of the Physics Society - 1937.

Kirkwood J.G.

67. The Pressure wave produced by Underwater Explosions.  
- OSRD Report 1942.

Kenn M.J.

68. Cavitating Eddies and their Incipient damage to concrete.  
- Civil Engineering and Public Works Review 1966.

Kerr S.L.

69. Determination of the Relative Resistance of Cavitation Erosion by the Vibratory method.  
- ASME Transactions 1937

Lichtman J.Z.

70. Study of Corrosion and cavitation erosion damage  
- ASME Transactions - 1958.
71. Cavitation Erosion on structural Material and coatings.  
- Corrosion 1961

Leith W.C.

72. Some corrosion effects in accelerated cavitation Damage.  
- ASME Journal of basic.

Morris A.W.

73. A review of vortex streets, Periodic wakes, and Induced vibration phenomena.  
- ASME Journal of Basic Engineering 1964.

Mousson J.M.

74. Pitting Resistance of Metals under Cavitation Conditions.  
- ASME Transactions 1937.

Mitchell T.M.

75. Collapse of a spherical Bubble in a pressure gradient  
- ASME Forum 1970.

Numachi F.

76. Effect of Surface Roughness on Cavitation Performance of Hydrofoils.  
- ASME Transactions 1965.

Oshima R.

77. Theory of scale Effects on Cavitation Inception on axially symmetric Bodies.  
- ASME Journal of Basic Engineering 1961.

Petarka A.J.

78. Hydraulic Design of Hollow Jet Valve Stilling Basins.  
- ASCE Journal of the Hydraulics Div. Sept. 1961.

Parking B.R.

79. Incipient Cavitation and Boundary Layer Interaction  
- California Institute of Technology 1953.

Plesset M.S.

80. On the mechanism of cavitation damage.  
- ASME Transaction 1955.
81. The Dynamics of Cavitation Bubbles.  
- ASME Transaction 1949.
82. On the stability of fluid flows with spherical symmetry  
- Journal of Applied Physics 1954.
83. Bubble Dynamics  
- Cavitation in real fluids 1964.

Rasmussen R.E.H.

84. Some experiments on cavitation erosion in water mixed with air.  
- NPL Symposium on Hydrodynamics 1956.

Rightmire B.G.

85. A study of the damage producing mechanism in Hydraulic Cavitation.  
- Massachusetts Institute of Technology 1941.

Rayleigh Lord

86. On the pressure developed in a liquid during collapse of a spherical cavity.  
- Philosophy Magazine 1917.

Robertson J.M.

87. Cavitation in Hydraulic Structures.  
- Scale Effects involved in Cavitation Experiments.  
- ASCE Journal of Hydraulics Div. May 1963.

Richardson A.

88. The Evolution of Parson's Steam Turbine.  
- Engineering - 1911.

Scott A.P.

89. Study of the Bertholet Method of Determining the Tensile strength of a liquid.  
- Journal Chem. Phy. 1948.

Strasberg M.

90. The influence of Air filled Nuclei on Cavitation Inception  
- DTMB Report.

Sutton G.W.

91. A photoelastic study of strain waves caused by cavitation.  
- Californian Institute of Technology 1955.

Shallner K.K.

92. Cavitation due to unevenness of the surface and erosion caused by it.  
- Translation from Russia 1951.
93. Steady Two dimensional Cavity flows about slender bodies.  
- DTMB Report 1956.
94. Supercavitating Flow past foils and struts.  
- NPL Symposium on Cavitation - 1956.

Thiruvengadam A.

95. A unified theory of cavitation Damage  
- ASME Journal of Basic Engineering 1953.
96. A comparative evaluation of cavitation Damage test devices.  
- ASME Symposium on cavitation Damage 1965.
97. Intensity of Cavitation Damage Encountered in field installations.  
- ASME Symposium on cavitation 1965
98. The Concept of Erosion strength.  
- ASTM Technical Publication 1967
99. Prediction of Cavitation Damage.  
- Co-Author - N.S. Govinda Rao  
- ASCE Journal of Hydraulics Div. Sept. 1961.

Taylor G.I.

100. The Instability of Liquid Surfaces when Accelerated.  
- Proceedings of Royal Society 1950.

Williams E.F.

101. Some factors affecting the Inception of Cavitation  
- Symposium on Cavitation in Hydrodynamic 1956.

Woods L.C.

102. On the instability of ventilated cavities.  
- ASME Journal of Fluid Mechanics 1966.

Wu T.Y.

103. A simple method for Calculating drag in the linear  
theory of cavity flows.  
- California Institute of Technology 1967.
